Všechny velké dárky spoj čarou se stromečkem, všechny malé dárky s punčochou.

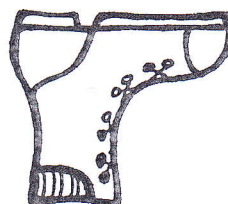

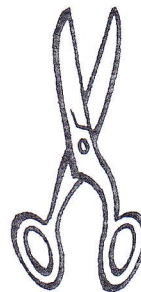

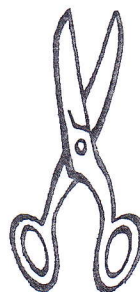

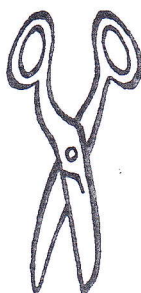

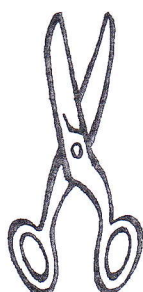

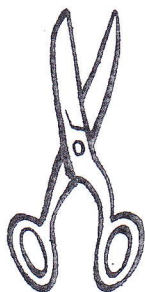

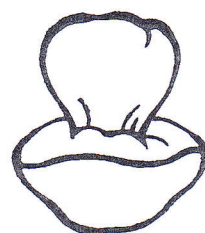

Který obrázek je jiný než všechny ostatní? Který se liší a proč? Odlišný obrázek vybarvi.

Všechny obrázky jsou stejné, ale jeden je nakreslený „vzhůru nohama“. Poznáš, který to je? Vybarvi ho.

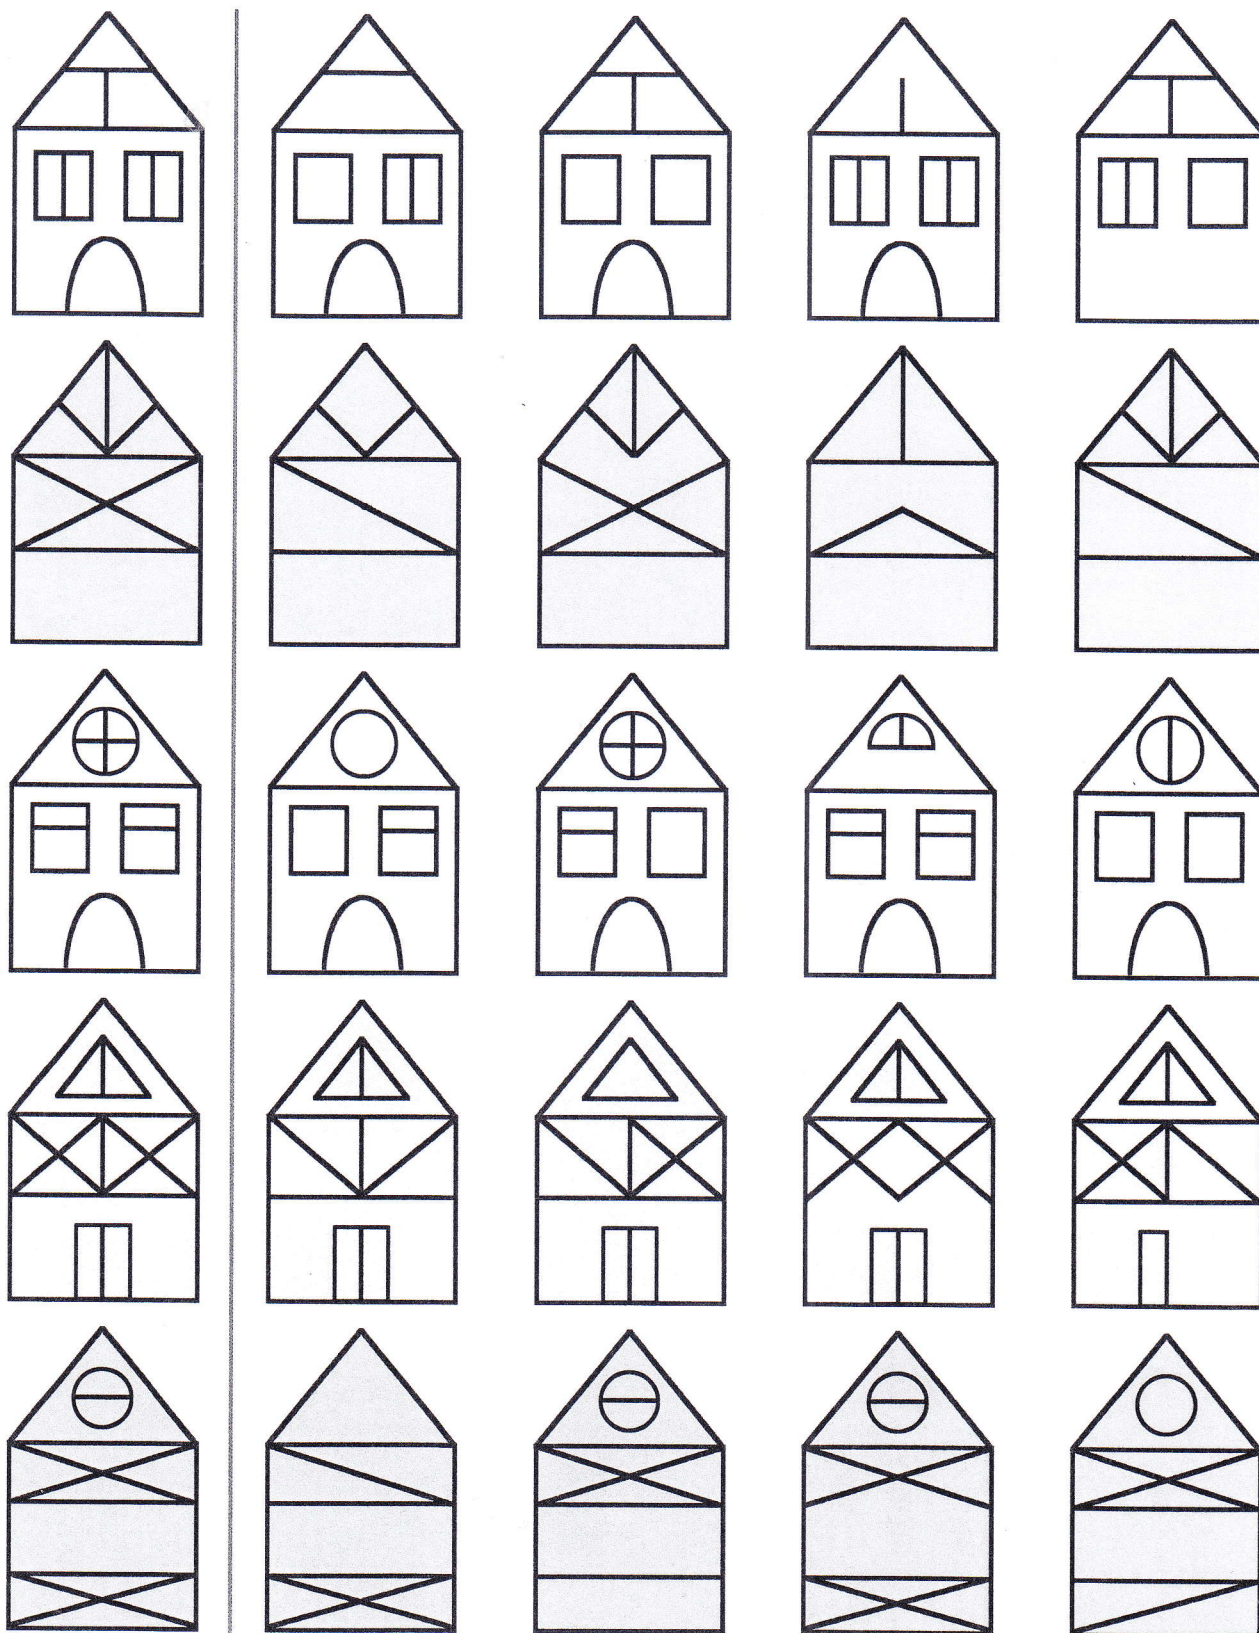

Obrázky je možné rozstříhat a předkládat dítěti tak, aby ten obráceně nakreslený byl vždy v jiném pořadí.

Barbora chvíli přemýšlela a navrhla: „Musíme vytvořit plán. Bez plánu bychom klíče těžko našli. Všichni se musíme dobře dívat, jestli je všechno na svém místě, jestli se nic nezměnilo, jestli se něco nepohnulo.“

Zrakové vnímání, rozlišení části a celku. Dítě doplňuje chybějící části obrázků podle prvního vzoru.
